

## A Small Wireless Solution that lets you work virtually anywhere!

The Way Systems Mobile Transaction Terminal (MTT) is a new state-of-the-art wireless solution utilizing the best mobile coverage available using the GPRS network as well as the latest in infrared technology with a wireless printer. Featuring a new silver casing design as well as a rich color screen, the new 1531/1581 models integrate the security and functionality of a traditional wireless POS terminal with a newer well-built design. With the option of having an internal pinpad, the Way Systems MTT is an extremely versatile wireless solution.
